UNION LABOR GIVES WORD TO WAR TO END

Celebrations of Holiday All Show Feeling of Loyalty WITH SOLDIERS NOW IN FRANCE Hundred Thousand Workers Join in Three Parades in N. Y.

WASHINGTON, Sept. 2.—Organized Labor at celebrations throughout the country today answered President Wilson's appeal to speed up war work by pledging loyal support to the government in "winning" the war.

MARCH ON FIFTH AVENUE NEW YORK, Sept. 2.—Nearly 100,000 soldiers of industry re-dedicated their services to "win the war for freedom" in three "marches" today.

WELCOME GOMPERS DETROIT, Michigan, Sept. 2.—An address by the Trades Union congress and anti-peace meeting was held yesterday.

IF HENEY IS OUT, THEN NEW MAN

Democratic State Central Committee Asked to Take Action

SAN FRANCISCO, Sept. 2.—The expected meeting of the Democratic state central committee this week promises to bring about formation of a definite program to unravel the tangle involving a Democratic candidate for governor at the November election.

No Quorum WASHINGTON, Sept. 2.—The Republican congressional campaign committee which was to have met to elect a chairman to succeed Representative Frank P. Woods of Iowa, failed of a quorum.

Wisconsin Primary MILWAUKEE, Sept. 2.—Considerable interest attaches to tomorrow's Wisconsin primary election in eight out of eleven congressional districts.

RALPH E. GROTE IS REPORTED ON WOUNDED LIST

RALPH E. GROTE Fresno Soldier who is reported wounded in action in France.

Ralph E. Grote was wounded in action in France on August 6, according to word received from the war department by his mother, Mrs. Millie Grote, 2306 Webster street, Fresno.

Grote was employed as a fireman by the Associated Lumber Company in Fresno before he entered the army.

PLAN INCREASED WHEAT ACREAGE

Government Wants 538,000 Acres Planted in California

SACRAMENTO, Sept. 2.—Methods of providing the increased wheat acreage next year called for by the federal government were outlined today at the farm bureau conference here.

Reports indicating large increases in food production the year in various counties in California despite a lack of moisture in some localities, were made.

MORE I. W. W.'S TO BE PROSECUTED

CHICAGO, Sept. 2.—Frank Nebecker of Lake City, chief government attorney in the prosecution which resulted recently in the conviction of 100 I. W. W. leaders of anti-war conspiracy, has been requested to take charge of similar cases in other cities.

IN WICHITA, Kans., forty men are under federal indictment on similar charges and at Fresno, Cal., about thirty cases are pending.

THRACIANS FORM NEW MOVEMENT

ATHENS, Sept. 2.—At a meeting here yesterday of more than 1,600 delegates to the congress which was held to elect a new government, the Thracians formed a new movement.

PRICE OF WHEAT TO REMAIN AT \$2.20 FOR SEASON

President Will Appoint Commission for 1919 Crop

SCHEDULE FOR WEST POINTS

Coming of Peace Would Upset Whole Grain Market

WASHINGTON, Sept. 2.—This year's government wheat price was continued in effect for the 1919 crop by President Wilson today in a proclamation fixing \$2.20 as the minimum price at primary markets.

Such an advance, if given, the President said, will apply only to producers who by that time have marketed their 1918 production.

OPENS ROAD TO DOUAI, CAMBRAI AND ST. QUENTIN

Big Headway Made by British and Americans in Flanders, Toward Armentieres

(BY THE ASSOCIATED PRESS)

Only a front of thirty miles from the region of Arras to Peronne, Field Marshal Haig's forces have literally smashed the German front.

Thousands of prisoners have been taken. At last accounts the enemy was fighting violently as he gave ground toward the Canal du Nord.

Turning on Loos and Chemin-des-Dames

Already the roads to Douai, Cambrai and St. Quentin are thoroughly invested by the British and French armies.

STIFF RESISTANCE—Many Prisoners

Hard fighting has been in progress between the British and Germans around Peronne, where the Australians successfully withstood violent attacks and have taken several thousand prisoners.

MUST RETIRE TO CHEMIN-DES-DAMES

Inevitable Result of Allied Move North of Soissons

WITH THE FRENCH ARMY IN FRANCE, Sept. 2.—(By The Associated Press.)—Huge fires which were seen in the direction of Vaux-la-Petite, northeast of Soissons, at 3 o'clock this afternoon, indicated that the enemy was burning his supplies.

CHICAGO-NEW YORK AIR POSTAL LINE?

WASHINGTON, Sept. 2.—First steps looking to the establishment of an airplane mail service between New York and Chicago will be taken by the postoffice department.

CANADIANS AND ENGLISH STILL DRIVING EAST

Break in Droocourt-Queant Line—Made Despite Fierce Resistance

ONLY 9 MILES FROM CAMBRAI

Fight All Day and Far Into the Following Night

WITH THE BRITISH ARMY IN FRANCE, Sept. 2.—(By The Associated Press.)—The British have pierced the Droocourt-Queant line in a fierce battle, which has been raging since dawn and which will probably prove to be one of the most important of the war.

STIFF RESISTANCE—Many Prisoners

Hard fighting has been in progress between the British and Germans around Peronne, where the Australians successfully withstood violent attacks and have taken several thousand prisoners.

THOUGHT WE HAD SECOND VOLCANO IN CALIFORNIA

YREKA, Cal., Sept. 2.—Preston Peak, a high mountain forty-eight miles west of here in the Siskiyou national forest, which for a time today was generally credited with being an active volcano, ceased its activity.

REACHING OUT FOR GERMAN BASE LINE

WITH THE BRITISH ARMY IN FRANCE, Sept. 2.—(Reuters.)—The troops of General Horne and General Byng began today's offensive southwest of Arras and by 7:30 o'clock this morning they had completely reached the Droocourt-Queant switch line.

CHICAGO-NEW YORK AIR POSTAL LINE?

WASHINGTON, Sept. 2.—First steps looking to the establishment of an airplane mail service between New York and Chicago will be taken by the postoffice department.

FINAL DRAFT OF REVENUE BILL READY FOR HOUSE

Will Be Considered Friday and Hurried to Vote in Ten Days

TABLE SHOWING INCOME TAXES

Total of Eight Billions to Be Provided Toward War Expense

WASHINGTON, Sept. 2.—The new revenue bill with a levy affecting every industrial and business concern in the country, was approved unanimously today by the House ways and means committee. Chairman Kittling will introduce it in the House tomorrow and ask for consideration Friday. Leaders hope to send it to the Senate within ten days after debate begins.

The final committee estimate of the revenue to be yielded under the new bill is \$8,012,793,000, as against \$2,941,633,000 last year, under the present law. The largest source of estimated revenue is from taxes on excess profits, including war profits—\$3,100,000,000—and the next is from taxes on incomes—\$1,432,188,000—from individuals and \$328,000,000 from corporations.

The increase in the taxes on the specified incomes of married persons without dependents is shown by the following table:

Incomes	Tax under Existing law	Proposed
\$3,000	10	30
\$3,500	20	60
\$4,000	30	90
\$4,500	40	120

The exemptions under the new bill are the same as under the old, \$1,000 for single persons and \$2,000 for married persons with \$200 additional allowed for each dependent child under 18 years of age. An exemption of \$200 for each dependent incapable of self-support because of mental or physical disability also is allowed.

The estimated yield from sources other than incomes and excess and war profits includes:

Transportation: Freight, \$75,000,000; express, \$20,000,000; passenger fares, \$60,000,000; seats and berths, \$5,000,000; all by pipe lines, \$4,500,000.

Telephone and telephone messages, \$18,000,000; telegrams, \$12,000,000; advertisements (theaters, etc.), \$100,000,000; club dues, \$2,000,000.

Excise taxes: Automobiles, etc., \$122,750,000; jewelry, sporting goods, etc., \$30,000,000; other taxes on luxuries at 10 per cent, \$88,750,000; other taxes on luxuries (cigars, etc.), \$200,000,000 (at 20 per cent, \$181,000,000).

Gasoline, \$10,000,000; yachts and pleasure boats, \$1,000,000.

Beverages (liquors and soft drinks): \$1,187,500,000; stamp taxes, \$38,000,000; tobacco, cigars, \$1,364,000,000; cigarettes, \$1,655,240,000; tobacco, \$304,000,000; snuff, \$2,100,000; papers and tubes, \$1,500,000.

Capital taxes: \$70,000,000; brokers, \$1,750,000; theaters, etc., \$2,143,000; mail-order sales, \$5,000,000; bowling alleys, billiard and pool tables, \$2,200,000; shooting galleries, \$400,000; riding academies, \$500,000; business licenses, \$10,000,000; manufacturers of tobacco, \$68,000; manufacturers of cigars, \$860,000; manufacturers of cigarettes, \$240,000; use of automobiles and motorcycles, \$72,320,000.

The report, which will be made public tomorrow by Chairman Kittling, explained the provisions of the bill in detail. It said the committee determined what proportion of the cost of the war this year should be financed by taxation and by bonds, not from previous experience, as there was no analogy in history, but upon thorough consideration of the effect on the morale of the people, upon price inflation, upon production, and upon the ability of the people to pay taxes now and after the war.

Two-thirds by Bonds. The committee explained that it had decided upon the raising of \$5,000,000,000 by taxation because it had accepted as a sound fiscal policy the recommendation of Secretary McAdoo that one-third of the government's estimated expenditures of \$24,000,000,000 this year be obtained from this source and the remaining two-thirds by bonds.

While the committee, the report added, "make this recommendation for the current year, it realizes that a fixed policy as to relation of taxes to bonds for the future can be determined at this time, and that the amount that would be raised by taxation in any given year must necessarily be determined after due consideration is given business and financial conditions existing in such year. The committee further adopted the policy that so far as practicable the \$5,000,000,000 should be raised from the first \$4,000 of the taxable amount the rate shall be 6 per cent. The measure also increases the surtaxes all along the line.

The report said the bill levied on all citizens or residents of the United States a normal tax of 12 per cent upon the amount of income in excess of exemption that on the first \$4,000 of the taxable amount the rate shall be 6 per cent. The measure also increases the surtaxes all along the line.

8,000 NURSES WANTED, AT ONCE

SAN FRANCISCO, Sept. 2.—Eighty thousand nurses before October 1 are asked for by the surgeon-general. The Pacific division already has enrolled 899 nurses.

Living with husband or wife, and all married persons living with husband or wife having a net income of \$2,000 or over to return.

The bill levies a corporation tax of 18 per cent upon the amount of the net income in excess of the credits allowed, but provides that all rates shall be 12 per cent upon so much of this amount as does not exceed the dividends paid during the taxable year, plus the amount paid during the year in discharge of bonds and interest-bearing obligations outstanding prior to the beginning of that year.

This provision was under fire in committee today, but without change. Under it, a corporation having \$100,000 net income in excess of its credits, which pays out during the year \$50,000 in dividends and discharges \$10,000 worth of bonds, would then be taxed 12 per cent on \$80,000 and 78 per cent on \$40,000. The committee believes that this rebate of 8 per cent on dividends will stimulate the payment of dividends which will be subject to surtax in the hands of the stockholders. The bill makes no change in the corporations exempt from income tax.

As to Partnerships. Partnerships are not liable to income tax, but each partner shall pay his income tax upon his share of the partnership profits, whether distributed or not.

The bill applies the war and excess profits taxes to corporations only. Provision is made to protect corporations whose invested capital is less than \$50,000 and those corporations in which invested capital is not a material producing factor.

Increases were also made in the estate tax, which will range from 3 per cent to 40 per cent.

The transportation and insurance taxes already made public included a new tax of 10 per cent upon the amount paid to any telegraph and telephone company for any special leased wire or talking circuit, but does not apply to collection and dissemination of news through the public press or in the conduct by common carrier of telegraph or telephone company of its business as such.

There is no reference to the limitation of prohibition legislation in what the report said about the beverage tax. Some new administrative provisions are imposed on liquor including the elimination of every exemption, such as the present law provision that retail liquor dealers may hold fifty gallons of distilled spirits and twenty-five gallons of wines free from the floor tax.

The income taxes, the report said, are fixed at approximately the highest revenue-producing rates that can safely be levied without greatly reduced consumption of tobacco and consequent reduction in revenue.

So far as practicable, the committee has placed the excise taxes upon the manufacturer, producer or importer. In the second group of articles regarded as a luxury when sold over a fixed price, the committee believed that these taxes should be paid by the consumer and collected by the retailer.

AMERICANS FORCE UP LIVING COST

One Reason Why They May Cease to Be Popular in France

PARIS, July 26.—(Correspondence of the Associated Press.)—The attitude of the French population toward the Americans today is in the highest degree friendly. There is, however, a factor which adds unpleasant possibilities and which comes into play in regions occupied by the Americans. That is the belief in the mind of the non-commercial French population that the sharp rise in the cost of living is chiefly due to the prodigality of the American troops.

The rise in the cost of living in France has been 48 per cent in the zone of the interior, and 55 per cent in the zone of the armies, since the beginning of 1917. In cantonnements where the Americans represent only a small proportion of the population, the increase is sometimes so small as to be hardly perceptible. But where Americans are found in great numbers the increased prices have reached a point which the authorities term as "anquishing," and which provokes among the non-commercial population a sharp discontent.

The American Committee on Public Information, of which James Kernen is the director in France, has made an investigation of the matter and it has come to the conclusion that there are three reasons for the rise in the cost of living in the regions occupied by American troops. They are:

The normal interplay of supply and demand.
The desire on the part of trades-people for immediate gain.
The prodigality of Americans.

The French authorities are considering vigorous application of the law which provides punishment for unjustifiable extortion.

The authorities are seriously concerned at the possibility that the American army may carry away from Europe the idea that the typical Frenchman is a greedy and indifferent "mercenary."

On the other hand, the American Committee on Public Information has suggested to the American authorities that they co-operate with the French in keeping down the cost of living as much as possible.

It has been suggested that American action might profitably be directed at once to a reduction in the prodigality of the troops.

BARBERS ON STRIKE.
SAN DIEGO, Cal., Sept. 2.—Labor Day in San Diego was featured by a strike of all union barbers. Members of the Boss Barbers' association and the journeymen demanded a raise in pay that cannot be met from the charge receipts, while the journeymen claim that their demands for additional pay are reasonable. If the union shops in the city are affected by the strike.

A Home Recipe For Removing Wrinkles

Who will blame the modern woman for trying to look as young and attractive as she reasonably can? Why should she be placed at a disadvantage in numerous ways by wearing wrinkles? If she can avoid these hateful marks of advancing age? Few women, however, know what to do to effect this rid themselves of wrinkles or sagging. Most of the advertised preparations are unsatisfactory and very expensive. But a very simple and harmless home remedy which any woman can make, will work wonders where all the patent preparations fail.

Buy an ounce powdered sallote at any drug store. Dissolve the whole ounce in a half pint of witch hazel and use as a wash lotion. The results are practically instantaneous. Marked improvement is noticed immediately after the very first trial. Wrinkles and sagging are corrected and the face feels so refreshed and smooth.

LABOR DAY PICNIC IS GREAT SUCCESS

Holiday Spirit Pervades Crowds at Roeding Park

Large crowds took advantage of the Labor Day picnic at Roeding park yesterday, held under the auspices of the Fresno Labor Council. The weather was all that could be desired for the celebration, and the park made a perfect gathering place. According to the estimates of the Labor Council committee of arrangements the attendance was larger, and the various events of the day went off with more vigor than on any previous Labor Day celebration.

In accordance with the conservation ideas of the government the Labor Council decided to keep the expenses of this year's celebration as low as possible. In carrying out this plan the committee decided to have no parade, but to confine the celebration to a basket lunch picnic with the accompanying sports, amusements and games.

The proceedings at Roeding Park began with the basket lunch at 12 o'clock. Following the lunch a program of sports and games was begun. Races for men, women, boys and girls were held, and prizes awarded to the winners. The prizes were donated to the council by the business men of the city.

A battalion drill of the Fresno Home Guard was given, and the majestics elicited the cheers of the onlookers. Two companies took part in the drill. The address of the day was delivered by J. P. Dale, national organizer of the American Federation of Labor, who spoke on union labor topics. P. L. Irwin, president of the Fresno Labor Council, also spoke and submitted a resolution pledging union labor to the support of the government.

What was agreed to be the most exciting event of the day was the tug-of-war contest between teams representing the carpenters and the hotel carriers. After a strenuous struggle of twelve minutes, during which neither side seemed likely to gain, the Hotel Carriers pulled their opponents half an inch over the line. J. P. Dale, the speaker of the day, acted as judge.

The annual dance took place in the auditorium in the evening with the usual large attendance. Holden's twelve-piece orchestra furnished the music.

The day was observed as a general holiday and all places of business were closed, including the government and public offices.

Masters Local No. 1508 journeyed to Fresno yesterday to celebrate Labor Day. An excellent dinner was given at a local restaurant, and the party finished the day with a theater party.

Those who formed the party were: C. Sciacca, R. Camarillo, G. Marini, G. Padellaro, S. Farinelli, B. Baraldi, G. Venturi, J. P. Dale, J. Campelli, B. Consolanti, M. Pioletti, C. Prospero, P. Sciarra, G. Tarabuzzi, A. Lozzari, A. Marascotti, C. Camarillo, V. Farinelli and P. Baraldi.

CONVENTION OF W. C. T. U. HERE

An important meeting was called of the W. C. T. U. members at the Y. W. C. A. yesterday afternoon when plans for the state convention and the fair convention were discussed. Mrs. Anna W. Smith of Parlier, who is county president of the union, was present and outlined the convention plans.

The convention is to be held in the first Christian church from October 21 to the 23rd inclusive and about 250 delegates are expected in Fresno. The present officers were organized on a committee to select the members for the various other committees, among them the committee on entertainment, courtesies, train, finance, registration, hostesses, rest room, badges, banners and music.

Mrs. Smith in a short talk, basing the W. C. T. U. work on the words of a great reformer who said recently: "If we want any help in our work we must have the help of God." Here she said that few people realize that the union concerns itself with work outside the temperance line, when in truth the work covers many different propositions including much war work.

Mrs. J. L. Marley and Mrs. R. L. Montee reported their arrangements for the fair. The concession this year will take the form of a cafeteria serving hot and cold luncheons.

A special meeting has been called by the president for next Monday afternoon at 2:30 for the purpose of announcing committees and further plans for both events.

ARREST MAN FOR STABBING YOUTH

A stabbing affray, resulting in the wounding of John Martin, aged 15 years, residing at 2339 Tulip street, with a gasp three inches long in the back just under the lower ribs, took place in the Florence addition to Fresno just after the city last night. Theodore Wehrle was arrested by Sheriff H. Thorwaldson and Deputies R. G. Johnson and James Clark, as the assistant.

From the evidence of witnesses it appears that Wehrle accused the boy, and started to strike him, and in the tussle which ensued Wehrle is alleged to have drawn a knife and inflicted the wound on the boy. At the time of his arrest Wehrle was in a state of intoxication. Wehrle was taken to the county jail, and the boy was removed to the county hospital.

Reports from the hospital last night said that the boy was resting quietly. Wehrle is an employee of the Valley Ice company and was engaged in the sinking of a well for the company.

BURBANKS TO GO ON MOTOR TRIP

Mr. and Mrs. A. J. Burbank of 644 Palm avenue announce that they are leaving this morning for an automobile trip through the Santa Clara valley and Monterey bay district. Mr. Burbank is a well-known resident of Fresno, and has been spending two weeks in a sanitarium as the result of a fall from his wheel on the state highway. His relatives, not hearing from him for several days, feared that he had met with an accident and started inquiries. Mr. Burbank is said to have suffered from a nervous breakdown which caused his relatives to feel anxiety over his absence. Mr. Burbank is now completely recovered. Mr. and Mrs. Burbank expect to be away about two weeks.

TAX RATE BEFORE THE BOARD TODAY

Supervisors Invite Public to Discuss Provisions of \$1.86 Levy

The county tax rate will be fixed today. The supervisors have received the county budget, prepared after consultation by County Expert Herbert C. Harvey, and will take it up provision by provision this morning. The proposed rate is \$1.86, a 20-cent increase over last year. The supervisors said yesterday that little comment had been offered on the proposed expenditures, but that the public is invited today when the rate must be fixed to have their say.

The county levy in the city is estimated at \$1.12, lower, because the city takes care of roads and other utilities by its own funds. The proposed taxes are largely sufficient to maintain the county government and the public works, on account of increased costs, Harvey says. More than \$400,000 of the money to be raised is for the schools. Amounts varying from \$5,000 to \$15,000 are wanted for buildings, including rest rooms at the park, hospital remodeling and a garage home.

Collector Ray Baker and his department started through the tax budget, including the \$1.86 rate. There are between 200 and 250 large bonds to be filed and it is proposed to have them all ready before any new bonds are issued. The assessment, and Auditor Harvey is trying to figure the special rates. The county will not have long to wait for the new county rate. The supervisors expect considerable discussion of the rate, but practically no opposition.

H. GRAFF REMOVED TO SAN FRANCISCO

According to the latest reports on the condition of the Graff family of Fresno, who were injured in an automobile accident last Wednesday at Lebec, near Bakersfield, H. Graff is suffering from a broken pelvis bone; Mrs. H. Graff has three broken ribs; and the daughter, Miss Anna Graff, has a broken collar bone. Mrs. A. Graff and child, who were also in the machine at the time of the accident, arrived in Fresno last night. Mr. Graff was taken to San Francisco last night after consultation had been held at the hospital in Bakersfield, with Dr. S. J. Hunkin of San Francisco. Dr. Hunkin accompanied Mr. Graff on the journey. Mr. Graff will be under the care of Dr. Hunkin.

Mrs. H. Graff and her daughter, Miss Anna Graff, are to remain at the hospital in Bakersfield, according to Arthur Graff. Mr. Graff will stay at the Fairmont hotel in San Francisco while being treated.

Among the recent arrivals at the Hotel Argonaut in San Francisco are: Miss M. Sprengle, G. Sparks, E. A. Williams, G. A. Wolf and family, A. Strickland, C. K. Hoover and Dr. A. A. Brown and family.

Word was received by Sheriff Thorwaldson late last night from the power house at Big Creek that the mill at Dawn station on the San Joaquin and Eastern railroad had been attacked by fire, but the efforts of a strong body of men succeeded in putting it out. It was also reported that some timber land was later on fire, but was saved before much damage was done.

The report stated that two men have been arrested by the deputies at that point, and are being removed to Fresno on suspicion of having set the fires. The men are stated to have acted suspiciously.

Breakfast Foods Are Now Taboo as Flour Substitutes

Hereafter rice, rolled oats, pure wheat flour and other breakfast foods may not be sold as wheat substitutes, according to an announcement made by George Waterman, food administrator.

Only certain prescribed substitutes are allowed. And the ratio now allowed is 50 to 20—50 per cent wheat and 20 per cent substitute instead of 20-50 as before September 1.

Using five pounds for convenience, the housewife may now use on the following combinations: With 4 pounds of wheat one pound of barley flour. With 4 pounds of wheat one-half pound of corn flour. With 4 pounds of wheat one-half pound of rye flour. With 3 pounds of wheat flour, 2 pounds of rye flour.

All over the Allied world, according to agreement reached at a recent conference of the food administrators of the United States, France, England and Italy, 20 per cent of substitutes will be used with all wheat flour. By making this 50-20 ratio universal, declared Mr. Waterman, "the governments believe it will be possible to supply the 12,000,000 Allied people with bread for the duration of the war. This victory bread is wholesome and not difficult to prepare."

The order limiting the purchase of families within the city to 25 pounds and of families outside the city to 20 pounds has been rescinded, according to Waterman, but not more than six pounds may be used per person per month.

A national campaign to acquaint every American with all the food administration regulations will be launched this month, according to Waterman. Speakers will be sent all over the country. The big food mass-meeting will be held in Fresno at the Municipal Auditorium on September 21. Mayor Toomey will preside, but the speaker has not yet been announced.

SUSPECT MOUNTAIN FIRES INCENDIARY

Word was received by Sheriff Thorwaldson late last night from the power house at Big Creek that the mill at Dawn station on the San Joaquin and Eastern railroad had been attacked by fire, but the efforts of a strong body of men succeeded in putting it out. It was also reported that some timber land was later on fire, but was saved before much damage was done.

The report stated that two men have been arrested by the deputies at that point, and are being removed to Fresno on suspicion of having set the fires. The men are stated to have acted suspiciously.

Working with Uncle Sam!

Introducing the New 'Tea-Foil' Package

Our Government needs every pound of tin for war. We have been working for a long time on a new and improved packing to take the place of tobacco tins; so we are now ready to co-operate by introducing the new "Tea-Foil" Package of TUXEDO Tobacco. We are thus able to render a double service—we are saving tin for the Government and at the same time giving smokers a better, handier, more modern tobacco-package.

Tuxedo

The Perfect Tobacco for Pipe and Cigarette

The new "Tea-Foil" Package of TUXEDO is:—

- Soft and pliable.
- Decreases in size as tobacco is used.
- Tobacco does not cake in this package.
- No digging it out with the finger.
- Keeps the tobacco in perfect condition.
- Costs you less than tin.
- 10c a package.

For those who prefer it—TUXEDO will still be packed in tins at 15 cents, and there is slightly more tobacco in the tins.

Try Tuxedo in the new "Tea-Foil" Package today.

CHESTER H. ROWELL, Editor and Manager

UPSIDE DOWN

There is a tendency to get this whole primary upside down—to think of it in terms of the rights and wrongs of candidates, instead of voters. The Chronicle, for instance, says that the primary law is not likely to be "construed to suit tricky politicians." It is not to be expected that the supreme court will hearken to the plea of a gang of political manipulators and impose on the Democratic party as its leader a Republican. The Democrats rightly object to having Rolph "jammed down their throats."

Now, this is clear topsy-turvy. The "tricky politicians" who "jammed Rolph down the throat" of the Democratic party, are precisely the majority of Democratic voters and their "political manipulation" consisted in casting their ballots for the candidate of their choice. It is the rights of these Democratic voters, not the rights or wrongs of Mr. Rolph, that are of public concern. Whether he is "entitled to" the nomination, or whether he was wrong to "run for" it, are matters aside from the point. When these voters, by majority, have chosen a candidate, it is a wrong to them to empower the voters of another party to nullify their nomination. And it is making that wrong not less, but worse, to provide them the candidacy of "some Democrat." Their right is not merely to "a" candidate, but to "the" candidate. To deprive them of a candidate is one wrong. To thrust on them another candidate, not chosen by them, doubles that wrong. And if it were possible, as the Chronicle bosses now propose, to impose on them the very candidate whom they have by their votes just rejected, that would be to triple the wrong.

The Democratic party consists, not of its leaders or committee, but of its members. Its choice is expressed by their votes at the primary. If the majority vote is cast for a Republican, then the Democratic nomination of that Republican is the Democratic will of the Democratic party. When the law denies them that nomination, it wrongs not the candidate, but the party. And when the leaders of the Democratic party express indifference as to the confirmation of the candidacy of the choice of the voters, because he is not a Democrat, and when they think Democracy is satisfied by the finding of a Democrat to be a candidate, they are only making the old blunder of thinking that a party is composed of its candidates and committeemen, instead of its members.

The Republican has been consistent in this doctrine. We have defended it for years, where Republican and Progressive interests were concerned, and we use no occasion to stultify it now that it is Democratic interests which are concerned. When the Republican voters determined that the Roosevelt electors should be the nominees of the Republican party of California, we insisted that the supreme court agree—that they were the nominees. When Hiram Johnson won the Republican nomination for Senator, we insisted that he was the Republican candidate, regardless of his personal registration. And now that Rolph has carried the Democratic primaries, we insist that he rightfully ought to be the Democratic nominee, and that the law which says that he shall not be is a wrong law.

However, we suppose the Chronicle is partly correct as to what the supreme court can and must do. The Hawsonized law is perfectly clear. It says that the Democratic party shall not have a candidate, either the one of its choice or any other. If the law is constitutional, it must be construed to mean what it says. If it is unconstitutional, then Rolph is the nominee. The court can only decide between the Democratic voters, who say they want Rolph, and the Hawson law, which says they shall have nobody.

CIVIL WAR AND NOW

The humor of history tempts to idealization of the patriotism of the past. But let us make some contrasts between the Civil War and the present war.

In the Civil War most of the higher officers in the army were politicians who were given their commissions out of favoritism by their fellow politicians who happened to be the war governors of the various states. In the present war the civilians are filling only the lower positions up to the rank of major, and each officer has to earn his commission even to these ranks by actual merit shown in training. In the Civil War the draft was resisted by riots in many places, and it was a grossly unfair draft in its organization. Any person of wealth could escape the draft by hiring a poor man as his substitute, and this was very commonly done. To promote volunteering many states and counties offered bounties, and the business of bounty-jumping grew up. A recruit would enlist, draw his bounty and desert at the first opportunity, only to show up at some other recruiting station to draw another bounty. Drafting and profiteering in war supplies were so common as to constitute a national scandal. Disloyal persons, known as "copperheads," were common throughout the north and in many places were too influential for governments or communities to dare to disturb them. The minority party out of office, instead of supporting President Lincoln, as the Republican party has supported President Wilson, was almost openly disloyal. Its political platform in 1864, when the war was almost won, declared in so many words that "the war is a failure," and its representatives in Congress, though few in numbers, were many of them dangerous obstructionists. The Union soldiers in their first great battle at Bull Run conducted themselves with disgraceful cowardice, in striking contrast to the heroic records of the American soldiers in their first battles in France. Bickering and jealousies among high military officers hampered and at some times endangered the conduct of the war, and some of the quarrels between them ended only when all of the parties were dead.

This is not to say anything against the men of Civil War times. The war called forth a great outburst of national patriotism and idealism. There was much heroism among the soldiers and a few instances of actual genius among the officers. But these facts and many others show the great improvement which fifty years of evolution have brought about. We are doing infinitely better now, morally and physically, than our predecessors of the Civil War. If we were to carry the story back further, we have only to read the letters and complaints of George Washington to know how incomparably more difficult were the conditions with which he had to contend than were given those of the Civil War.

WHY NOT DRY WINE?

The announcement that the output of sweet wine in California this year will be decreased two-thirds, while the output of dry wines will be increased, raised the natural suggestion, why not make most of the Fresno wine grapes into dry wine? The market for dry wine is very wide, and is the most nearly legitimate of any of the markets for beverages containing alcohol. The prospect of prohibition will increase and not decrease the demand for dry wine this year, inasmuch as many persons accustomed to using wine with their meals will lay in a supply to cover the dry years to come. Since wine not only keeps, but improves with age, there is no limit except his money and cellar capacity to the amount which any householder might lay away. Sweet wines, on the other hand, seek partly a patent medicine market and partly a booze market. The fraction of them which goes into legitimate wine consumption is comparatively small. The liquor laws have already curtailed and will soon destroy the booze market, and it is therefore probably good business on the part of the wine association to curtail the output.

There is nothing, however, to prevent the manufacture of the entire, or practically the entire Central California wine grape crop into dry wine of reasonable quality. We can not make the finest dry wines here, but there is very little such wine made, even in the dry wine regions. Most of the wine everywhere is of the ordinary quality, and of this quality we can make a large quantity very cheaply out of Fresno county grapes. If dealers wish to blend it afterward with Napa county wine, they can possibly improve both by the blending. Dry wines are made successfully in northern Africa, in hot climates, out of sweet wine grapes, and Prof. Bileotti has demonstrated that the same thing can be done on a commercial scale in the warmer parts of California. It requires some extra care and equipment, but at the price this year these things would pay. At any rate, so long as there is a wine market, it is better to make these wine grapes into good wine than into poor raisins. When the wine market ceases, which will be next year, then we shall have the other problem to meet.

STILL ON BALLOT

Those who have been worrying last the present primary muddle deprive the Democratic party of legal existence for the next presidential election have not read the law. After the election of 1912, when the Taft electors did not get on the ballot, the legislature of the following year immediately remedied the difficulty. There are, under the law as it now stands, three bases on which the Democratic party can get on the ballot in 1920. It can probably go on by virtue of the vote cast this year for its candidate for lieutenant governor. Even without this, it goes on automatically if 2 per cent of all the voters in 1920 register themselves as Democrats. Even if some unscrupulous should prevent any voters at all from registering themselves as Democrats, the party could still go on the ballot and could nominate its candidates by direct primary, upon the mere presentation of a petition signed by a sufficient number of persons declaring that they wish to be regarded as the Democratic party and to have the privilege of nominating candidates by primary. There is, therefore, now no danger of extinguishing a party unless it is actually extinct, and there is no difficulty in starting a new party with all the privileges of an old one, provided its membership is numerous enough to entitle it to these privileges.

KILLED BY SMUGGLERS.

BROWNVILLE, Texas, Aug. 2.—Customs Officer Fred Tate was shot and instantly killed by alleged Mexican smugglers last night on the main road two miles north of Brownville. Tate was the second officer killed by smugglers in this section within a fortnight. Ranger Joe Shaw was shot and killed on August 25.

STORM IN FORMOSA

TAIPEI, Formosa, July 25.—Five people have been killed and about 3,500 houses destroyed in a typhoon which has swept over the Japanese island of Formosa. The storm destroyed telegraph and telephone communication. The sugar plantations were only slightly affected.

UNION LABOR GIVES WORD TO WAR TO END

"Extraordinary recruiting going on in Ireland." Colonel William Thorne, Social Democratic member of parliament, said in an address.

"Rather than accept a price on the status quo ante-bellum, I would prefer to see us wiped out. I would stand for a peace that will give the absolute right of self-determination to all peoples."

5,240 Labor Stars

KANSAS CITY, Mo., Sept. 2.—A service flag nearly 500 feet long and bearing 5,240 stars of them in gold—labor's contribution to the war from Kansas City—was the feature of a parade of ten thousand union workmen here today.

REACHING OUT FOR GERMAN BASE LINE

(Continued from Page 1.) The barrage had unnerved the Germans completely. The British then fought their way through line after line, fighting in many cases hand to hand.

The wood north of Queant was found to be full of Germans with machine guns. The fighting there was of the very fiercest nature until the British cleared the wood. Where shells had failed to break through the wire tanks rolled it out flat and charged down into the masses of Germans. Those who did not fall before the guns were crushed together with their machine guns.

The strategy of Dury was executed with German dead. Here the British captured the town mayor and among the prisoners were several battalion commanders. Mont Dury was stormed soon afterwards, but was only taken after a terrific struggle.

More reinforcements. British wounded returning from the fighting here said that from the top of the mountain they could see the Germans coming up from the east in masses. Also from the mountain they could see German artillery retiring.

It was the Canadians who took Dury and the mountain. Although facing a heavy fire they had only a small fraction of the casualties inflicted on the German soldiers.

At this writing, counter attacks by the Germans are expected and probably will be most violent. The British are prepared, however. Even whether the British are attacked in the woods they have met with a hail of bullets and resistance which increased the danger they were in.

By the time the woods southeast of Cambrai were reached the resistance stiffened. In all the villages there was hand to hand fighting. Hungry and Dejected.

The German prisoners were mostly a dirty, hungry, dejected lot. The officers asked for food as soon as they reached the cages. Many prisoners said they were convinced that the war would be over this year.

"Does that mean the Germans have lost?" asked an officer of one large group.

The members of the group replied that they did not care whether the Allies won or not.

Both the Canadian and English troops report the Germans in many places fought to the death and died at their guns. They had had orders to hold on until the last.

If the British maintain their gains in the face of the expected German counterattacks, the fighting of which may still increase the violence of the struggle, the Hindenburg line will be in greater danger.

In the southern battle area the British again continued their advance between Peronne and Reims, and there has been heavy fighting at along the line. East of Peronne, and Mont St. Quentin, more ground has been gained. There has been hard fighting in the southern zone, but nowhere has it approached in intensity that at Becourt.

SEES BRITISH ARMY FED, ARMED AND CLOTHED

LIEUT. GEN. SIR JOHN COWAN, G. M. G. of the British Army, on the right. He is responsible for the supply of food, materials and ammunition to the British forces fighting on all fronts.

CAMP LEWIS, TACOMA, Wash., Sept. 2.—Military activities were almost suspended today. With the exception of guard duty and fatigue work the new soldiers in training had the day for themselves and many left camp for the Labor Day celebration in nearby cities. Draft men just arriving from western states found their first opportunity to tour the camp and see the extent to which the United States is preparing for war.

MINE RIOTS IN JAPAN. TOKYO, Saturday, Aug. 31.—(By the Associated Press.) Serious disturbances are reported among the miners in the Kyushu coal district. At one colliery miners set fire to mine buildings and fifty houses were destroyed.

BUSY ARMY FREIGHTYARD IN FRANCE

Commissaire on freight information. All freight is sorted in these yards before it goes to the interior. This photo shows American soldiers in France busy sending supplies to their comrades at the front.

CAMP LEWIS GETS 10,000, PAST WEEK

CAMP LEWIS, Wash., Sept. 2.—Thirty-five Californians and thirty effective draft men from North Dakota arrived today completed a movement of 10,000 men here during the past week. Beginning tomorrow another movement of 15,000 men will arrive.

Mustering officers told today how a man with one glass eye passed his draft board and was sent here for service in the last call.

This man, from a California city, was anxious to fight Germany, musing of officers said. When he went before his draft board for examination he did not tell of his infirmity. Instead, when his slighted eye was tested by the examining physician with the good one, this one eye was raised as normal, and so cleverly did he manage when the sightless one was being tested that this, too, was given a normal rating. The man was re-examined by army doctors and returned to his home.

TO URGE LIMIT ON CHRISTMAS GIFTS

WASHINGTON, Sept. 2.—Retail interests represented at a conference called by the war industries board have agreed not to increase their working hours or normal working hours for the holiday season. The board has urged that Christmas gifts, except in the case of children, be confined to useful articles. Reports from all sections indicated that the manufacturers and delivery of holiday goods to the home districts had been completed. Waste material derived from former processes of manufacture was used largely in making toys.

IF HENEY IS OUT, THEN NEW MAN

(Continued from Page 1.) nomination through the farmers and laboring men's eyes. The Democratic ticket headed by H. A. Moehlenpach, of Clinton, has no opposition, the ticket having been agreed upon at a state conference.

Flowers Nominated

LOS ANGELES, Sept. 2.—Montaville Flowers was nominated by the Republicans for congressman in the ninth district, according to complete semi-official returns available tonight. His vote was 3791, while that of Charles H. Randall, the incumbent, was 3242. Randall was nominated, however, on the Prohibition ticket.

NECESSARY POWER GIVEN FOR WAR

WASHINGTON, Sept. 2.—Representative Ferris of Oklahoma, Democratic congressional committee chairman, addressed the House today on the achievements of the administration in the war. He declared references to President Wilson as dictator came from "enemies of the republic."

"My answer to this charge is that it is slander and an untruth," Mr. Ferris said, "and the man who makes such a charge in war time is a man who hates his country more than he loves it. Who regards it more than he helps and who worries more about politics and partisan advantage than he does about the success of the soldiers at the front. The only criticism that has ever been waged successfully against a Republican form of government is that a republic governed by the hour of great stress cannot quickly assemble itself for purposes of defense."

"The only way successfully to combat this charge is in time of war and quickly to give the chief executive full power to act and to act without consulting a debating society while the enemy of the country is at the gates."

Ferris reviewed the accomplishments of the military and industrial branches of the government.

"Can there be anything about this achievement that will make Democrats ashamed of their democracy, or make the Republicans ashamed of their country?" he asked. "I prefer to believe that Republicans and Democrats everywhere will prefer to stand hand and foot and encourage the public to believe the private citizens who encourage the public behind the President, the Congress and the country."

Burdens Equalized. Under the income tax law and the selective draft, the charge that "this is a rich man's war and a poor man's fight" has been refuted, Ferris declared.

Activators like the poor will always be with us, Washington had many tales, Lincoln many copperheads and Wilson has a few pacifists and agitators. Wilson has legions of the poor. Ferris' speech was a keynote declaration for the fall campaign. He said Republicans and Democrats were working alike for success in the great way of all time and cited the fact

PRICE OF WHEAT TO REMAIN AT \$2.20 A BUSHEL

(Continued from Page 1.) ing a high level of price to our own people for a long period subsequent to freedom in the world's markets.

"Despite this, the desirability of assuring a supply to the world of prime breadstuffs, by insuring the farmer against the fluctuations in prices that would result from the uncertainties of the present situation and from the speculation there, uncertainties entail, seems to me to make the continuation of the guarantee for another year desirable. On the other hand it is clear that before increasing this liability by large sums with the risks set forth above and before increasing the burden of the consumer, the matter should be subjected to searching inquiry at the appropriate time—the time when the pertinent facts will be known."

"I feel confident that with this preliminary fixed guarantee and with the assurance that justice will in any event be done to the grower, he will continue the fine, patriotic effort by which he has served the country hitherto, that the government will have acted prudently, and that the consumer will be satisfied that his interests are not unduly sacrificed, but just and exhaustive consideration given to every element of the matter at the proper time."

MODESTO MAN IS GIVEN COMMISSION

WASHINGTON, Sept. 2.—The adjutant general's office, through the committee on public information, today announced the list of successful candidates for commissions at the fourth central infantry officers' training school at Camp Gordon, Ga. Among those who received commissions as second lieutenants follow:

Raymond H. Corsons, Modesto, Cal.; Milton Cusick, Lodi, Cal.; Comillas N. Hackett, 1109 Grand Avenue, Oakland, Cal.; William H. Mesler, 513 So. Broadway, Los Angeles; Frank Morin, 2429 Durant Avenue, Berkeley, Cal.; Paul J. McCoy, San Leandro, Cal.

that an eminent Republican Ethhu Root had headed that most delicate of foreign missions to Russia; that former President Taft and Charles F. Hughes had been chosen for important war work. Among other Republicans in the administration he mentioned Charles M. Schwab of the Emergency Fleet corporation, Fuel Administrator Garfield and Food Administrator Hoover.

Representative Longworth of Ohio challenging the classification of Mr. Garfield as a Republican, said Dr. Garfield is not a Republican, and that he is a strong supporter of President Wilson.

THAT SOUR STOMACH. Can be relieved with a single dose of M. A. C. at all leading drug stores. Beware of unscrupulous druggists that want to sell you something just as good.

"Did you ever get a proposal, Annie?" "Once, my dear. A German proposal over the telephone, but he had the wrong number."—Boston Transcript.

Fresno's Yesterdays

Taken From the Files of the FRESNO REPUBLICAN

Forty Years Ago. S. D. Fresh, living in the Central Colony, has two orange trees that were set out three years ago, now bearing oranges the size of large apples. One tree has over fifty, the other half a dozen.

Ray White of the Central Colony cut a watermelon last Sunday that weighed sixty-four pounds. Also says that he has over fifty pounds of grapes from single vines, which were set out as cuttings a year and a half ago. He refers to a score of witnesses to prove his assertions.

Mr. S. Littlefield, living in the Central Colony, recently harvested over ten tons of wheat from two measured acres of land. His land is moist to the surface, the water level being two and a half feet below. Four years ago it was over fifty feet down to water on the same land.

Twenty Years Ago. A drummer who was in Fresno on the night of the big fire there remarked the other day that he would not be surprised to hear that investigation had disclosed the remarkable fact that the conflagration resulted from the spontaneous combustion of ice.—Pomona Progress.

Ten Years Ago. When God expelled our first parents from the Garden of Eden he laid on them two curses—work and intelligence. And these two curses have turned out to be precisely the two greatest blessings of humanity. Intelligence is blessing to the garden and a curse. It imposes new tasks and new worries and makes life harder. The less one knows the more contentment he has. But nevertheless this burden of intelligence is the greatest thing in the world—the one thing toward which history, struggling up from the tribulations, has tended. No one now denies that intelligence is a boon, even when it is a burden and earns nothing. It is not so easy to recognize that the same thing is true of work. Work is a burden, but it is also a glory—the best and broadest experience of life. Work is not a misfortune—it is a great blessing.—Editorial.

SAN JOSE, Sept. 2.—The annual state convention of the Letter Carriers' association adjourned its one-day session here today by selecting Pasadena as the next meeting place. The following officers were elected for two-year terms: President, B. E. Davis, Los Angeles; vice president, Russ Le Clerc, San Jose; secretary, George N. Ahern, San Francisco; treasurer, Frank Eason, San Diego; executive committee, Willet Hopkins, Petaluma; C. A. Torkstein, Fresno; W. H. Titus, Los Angeles; Delegate at large, Charles H. Kenkel, Oakland; alternate, E. D. Lewis, Los Angeles.

LOCAL BREVITIES

Home and Automobiles.
Holland's Poultry Food Department Manager will recommend his laying flocks. Ask him.
Dr. Clay has returned.
Dr. C. E. Phillips has returned.
Leo Danish Creamery Butter.
Dr. Ratty, dentist, Rowell building.
Buck's studio, Green Bldg., J and Fresno.
Dr. C. C. Williams returns September 1.
Dr. Lockwood, dentist, corner Mariposa and K streets, over "Hollands".
Dr. J. L. Martin, office, in the Green building, corner J and Fresno streets.
In these strenuous times we keep up to the name the French Bread "De Luxe".
The Athens Bakery.
Dr. George A. and Jessie D. Hare have removed their office from 704 to 815-816 Fifth-McKenzie building.

PERSONAL MENTION

Fred S. Mayfield of Lamon Cove registered at the Sequoia yesterday.
R. Larson is registered at the Hughes from Corcoran.
Harold R. Sawtelle of Visalia is stopping at the Hughes.
Alvin E. Hanson of Phoenix is registered at the Sequoia.
Mr. and Mrs. F. B. Haines are guests at the Hotel Hotel from San Francisco.
Mrs. Pyllie Dale of Santa Barbara is registered at the Hughes.
Among Sequoia registrants are J. E. Frank and family of Orange Cove.

RURAL POSTMEN

SESSION CLOSED

Opening at 8 o'clock yesterday morning, the California State Rural Letter Carriers association met in session at the Sequoia hotel with 59 delegates from all over the state. One or two delegates represented each county that has rural delivery.

The outgoing officers were: President P. B. Jewell, Downey; vice-president, Alvin Peterson, Fresno; secretary, C. B. Austin, Chula Vista. The newly elected officers were installed as follows: President, E. J. Taylor, Lathrop; vice-president, L. W. Taylor, Selma; secretary, C. B. Austin, Chula Vista; treasurer, William A. Rylander, Lathrop; executive committee, J. W. Haynes, San Jose; Marvin Peterson, Fresno; and J. W. Layton, Riverbank.

Among many resolutions passed was the following: "Whereas, our country is still in the world war for freedom for all forever, be it resolved by the California State Rural Letter Carriers association that individually and as a body we pledge our support to the limit in every available manner whatsoever, and that a copy of this resolution be sent to the president and congressmen."

A resolution thanking congress for the "increased compensation" was passed. Co-operation to and with the food administration was extended. A vote of thanks to the Fresno members for their courtesy and entertainment, and to the Sequoia hotel was also passed. The investigation and address of welcome was given by Rev. Charles Laurent Beal of the North Side Christian church.

Following a watermelon feed last night, the delegates enjoyed the program at a local theater.

CLUB PRESIDENTS TO MEET.
Miss Maud Wolff, general secretary of the K. W. C. A., has called a meeting of club presidents of the association for Thursday at the Sequoia hotel. The purpose of the meeting is to plan for the winter work.

SACKS STOLEN AT MADERA.
A report of the theft of 75 sacks marked A. H. Berenda, and two auto tires, one of which was new, was made to police headquarters in Fresno yesterday from Madera. It was stated that the thief was observed making his escape in an automobile.

MARRIAGE LICENSES.
EDWARD WOLF, Edward Wolf, 54, Fresno, and Maud Wolff, 41, Fresno.
PETERA BACILE, Louis L. Petera, 30, Woodlake, and Eva M. Bagn, 25, Woodlake.
RICHARD J. JONES, 24, Madera, 41, Fowler, and Harriet L. Lea, 25, Fowler.
VINCENT SIBRO, John A. Fisher, 41, San Francisco, and Elaine S. Sibro, 24, Paris.

DEATHS.
KIRBY—New Clarks, Calif., September 1, 1918. A. Kirby, beloved husband of Maud M. Kirby, loving father of Arthur J. Kirby, Jr., and Margaret Virginia Kirby, Mrs. J. E. Gilbert, Mrs. J. P. Sumner and Mrs. J. E. Kirby, native of Kentucky, aged 57 years, 8 months, 15 days. Friends and acquaintances are respectfully invited to attend funeral services tomorrow (Wednesday) morning at 10 o'clock from the Grace Methodist church of Clarks, interested in the Clarks cemetery. Arthur Kirby, funeral director.

CARD OF THANKS.
We wish to express our sincere thanks to our friends for their kind sympathy and floral offerings to our bereavement through loss of our husband and father.

MRS. CHRISTINA VALDES.
MRS. ROBERT ARNETT.
SAN LUIS OIL CO.
FRANK VALDES.
DANNY VALDES.

SOCIETY

Friends of Miss Rene Gabrielle Dalton, daughter of Mr. and Mrs. Frank Dalton, will be interested in the announcement of her marriage yesterday to Dr. Roscoe Nelson Gray of Oakland, son of Roscoe Spaulding Gray, San Francisco attorney, and grandson of the late Judge F. V. of San Francisco. Miss Dalton formerly resided in Fresno, at the family home near Lone Star, and since they moved to Oakland has visited the ranch several times. The ceremony was performed at the Trinity Episcopal church, Oakland, by Rev. Bakewell. Miss Jessie Dalton, the bride's sister, attended as maid of honor, and the groom had as his best man, a fellow physician, Dr. James McCullough. A pink and white color scheme was carried out. Miss Dalton wearing soft white silk with conventional tulle veil and carrying a shower of white roses and ferns.

The main of honor were pink crepe de chine and carried pink roses. After a wedding breakfast at the home of the bride's parents, Dr. and Mrs. Gray left by motor for a honeymoon tour to Lake Tahoe. Shortly after their return to the city, Dr. Gray will answer his call to the colors, having been on the reserve list for the past year.

E. A. Elliott and Lionel Dalton, uncle and cousin of the bride, motored up on Sunday to be present at the wedding.

Of much interest to Fresnoans will be the following item, culled from an Alameda paper:

"A recent marriage of interest to many Alamedans is that of Miss Fern Hurlbut and Frank S. Granger, Jr., of Fresno. Mrs. Granger made her home with her father, F. H. Hurlbut, 1109 Santa Clara avenue, and attended the local high school. This many friends of Mr. and Mrs. Granger will be happy to learn that Mr. Granger's business interests will make it possible for the young couple to make their home in Alameda for the present."

Mr. and Mrs. Chester H. Rowell and family motored home on Sunday from Berkeley, where they have been spending several weeks, following a summer outing at Pacific Grove. Miss Clara Rowell will return to the Bay City shortly to enter the University of California at the commencement of the fall semester.

Mrs. W. D. Noble returned Sunday from Churnish-by-the-Sea, where she and her daughter, Miss Dorothy Noble, have been enjoying a summer outing for a couple of months. Miss Noble remained in Berkeley, en route home, to be the guest of Mrs. Linville Hutchins (Margaret Logan) for the week.

Mr. and Mrs. Hugo Allard and family motored home from Pacific Grove yesterday, after a vacation sojourn at that popular resort.

The announcement of the engagement of Miss Antoinette Miklau of San Francisco will be of much interest to her numerous friends in Fresno. Miss Miklau claiming a host of them through visits in town as a guest of the C. S. Pierce household, and also through college association. She is a member of the Delta Gamma Sorority, which numbers many of its members from among the Fresno college contingent.

The following item from the Examiner tells the interesting story:

"The engagement of Miss Antoinette Miklau, daughter of Mr. and Mrs. A. Miklau of this city, and Dr. M. McLean Morrison is announced through cards sent out by the young lady to her friends.

"Miss Miklau is a graduate of the University of California and a member of some of the school societies.

"Dr. Morrison is the son of Mr. and Mrs. Edward Morrison of Auckland, New Zealand. His grandparents were among the first white people to go to New Zealand, and the present generation, which includes several families of prominence, owns extensive land interests in Australia. He is a graduate of the University of Edinburgh and a Lieutenant in the Royal Army Medical Corps. He served three years, and previous to this time was senior medical officer at the Leicester Royal Infirmary, England. The date of the wedding depends upon Dr. Morrison's return from the war."

Mr. and Mrs. W. P. Thompson and their daughter, Miss Edith Thompson, have returned from a three months' sojourn in the Yosemite Valley.

Miss Freda Van Fleet has returned from a two months' holiday outing in the Bay cities.

Mr. and Mrs. E. A. McCord are enjoying a sojourn in San Francisco.

Miss Helen Rogers, who is in San Francisco for the summer, entertained a congenial group of friends at her apartment on Vallejo street on Saturday afternoon, among the local friends

Dr. Garfield's Timely Hints on Heating for Careful Housewives

Dr. Garfield yesterday forwarded to Fresno a booklet containing "special rules on heating," which becomes effective on receipt. They deal exhaustively with the subject of heat regulation and should be obeyed to the letter. Some of them follow:

"Keep the temperature of sitting-rooms at 65 degrees or less. If there are invalids, old folks or very little children in the family, the temperature may be higher. Rooms where you do not sit are more comfortable if much cooler, as a rule, providing the air is kept a little moist. Get the thermometer—a good one. Use it inside, not hanging outdoors.

"It is wasteful to allow the temperature to drop way down at night. It takes twice as much coal to heat it up again the next morning.

"Turn off the heat in unused rooms whenever possible. Bedrooms should be kept much cooler than living rooms. Don't try to heat all the rooms all the time.

"Be sure there is a check draft damper in the smoke-pipe, besides the turn damper. This check draft-damper is as important in controlling the rate at which the fire burns as is the throttle of an engine. Open it to check the fire, close it to make the fire burn more rapidly. Experiment with it in the daily regulation of your fire. Make it do its work. The cooling door was not put on the heater to check the draft if you cannot check the fire without opening the cooling-door, you need proper dampers.

"The turn-damper should fit the smoke-pipe loosely and must never be entirely closed. With the average plant it may be kept partly closed most of the time in mild weather, but during severe weather it usually needs to be opened wide."

included in the group being Mrs. Leland Cudler, Mrs. Ernest Miller, Mrs. Herbert Gundelfinger, Mrs. August Muenster, Mrs. Fred Hammerly, Mrs. Ben Walker.

Mrs. Alfred H. McKenzie and small daughter, Betty Ann, returned Sunday night from a very delightful sojourn of several months at Seabright.

Dr. and Mrs. Frank D. Wolfe and family have returned to Fresno after a summer outing at Lake Tahoe and Pacific Grove.

A. D. Olney and daughters, Miss Ruby Olney and Miss Bernice Olney, left Sunday for a motor trip to Los Angeles, where they will enjoy a visit with Mr. and Mrs. Walter Olney. They will also spend a short time in Santa Barbara with Mr. and Mrs. Clyde Olney.

Mr. and Mrs. Robert Barton and daughter, Miss Blanche Barton, have returned from a summer outing at Seabright.

Mr. and Mrs. A. F. Ray and son Melburne left yesterday for their home in Taft. They motored up two weeks ago to visit her mother, Mrs. A. Fishbach, and his parents, Mr. and Mrs. S. M. Ray. While here they motored to the various mountain resorts.

Mr. and Mrs. G. H. Van Meter announce the marriage of their daughter, Erna May, to Frederick L. Evans of Los Angeles, the ceremony having been performed on August 24 by Rev. W. W. Richardson, pastor of the Hollywood Christian church. Mr. and Mrs. Evans will make their home in Los Angeles.

Edwin L. Cassier returned to Fort McDowell Sunday after a nine-day visit with relatives. He expects to enter the aviation training school at Berkeley.

Mrs. F. P. Sanborn is at home after a pleasant outing in San Francisco and Oakland.

Mrs. Edna Askin Cross returned last night from a very delightful visit in Oakland with her sister, Mrs. W. S. Haskins.

The Philathea Class of the First Baptist church will meet this afternoon at the home of Mrs. T. E. L. McFadden, 519 N street.

Mr. and Mrs. Jack Sparks have returned from a motor trip to San Francisco and other Bay points.

A special sewing session of the Community auxiliary of the Red Cross will be held this morning at 9 o'clock in the basement of the First Congregational church. A special request is made of all ladies who can do machine work and find it possible to be present on Tuesday-of each week, to be present today and assist in the patriotic work of making hospital garments for the soldiers. Also it would relieve from service certain of the members who have been giving up two days each week during the month of August, and who will retain Thursday for regular attendance.

R. C. SHOP KEEPS OPEN LABOR DAY

Despite the fact that all business houses were closed on yesterday, in observance of Labor Day, there was a generous patronage of the Red Cross Salvage Shop.

Among the numerous articles which those in charge are constantly receiving calls for are window shades, curtains, dishes and especially cups and saucers. In order to make more salable certain of the clothes, there is a request to patriotic women to assist in mending the garments and putting them into wearable condition. For convenience of those in charge, there is also a call for a bulletin board or a blackboard. About \$20 was the sum total of yesterday's sales, which was considered fair, owing to the holiday. Those in charge were Mrs. R. Manson, Mrs. T. E. Mabell, Mrs. Gerard, Mrs. Wilhoit, Mr. and Mrs. Enochian.

MENDOTA BENEFIT NETS R. C. \$308.85

The Red Cross branch of Mendota gave an entertainment and dance on Saturday night which netted the branch \$308.85. Splendid support from neighboring Red Crosses made possible the generous sum, a large attendance having come from Don Paton, Firebaugh and other places. Donations of pigs, turkeys, sheep, chickens, ornaments and numerous other things were listed upon the sales sheet for the evening, and brought substantial sums. Mrs. John T. chairman of the Mendota branch, had an efficient committee assisting in the work, which resulted so satisfactorily.

GAS ON YOUR STOMACH Can be relieved with a single dose of Smith Bros' M. A. C. It's the best remedy for gas, headaches, dyspepsia and constipation. "At all drug stores."

Dr. Garfield's Timely Hints on Heating for Careful Housewives

Our Fall Catalogue

Will Soon Be Ready

And if you live out-of-town and your name is not already on our list, we advise you to SEND IN YOUR REQUEST AT ONCE. Mail orders handled promptly.

An Unbroken Chain of Boiling Points

The value of gasoline lies in the uniform continuity of its boiling points. In Red Crown, the Gasoline of Quality, the boiling points form a continuous, uniform chain.

Only a straight-distilled, all-refinery gasoline can have this continuous, uniform chain. Mixtures always have "holes" in them.

Red Crown is a straight-distilled, all-refinery gasoline having the full and unbroken chain of boiling points: Low boiling points for easy starting, medium boiling points for quick and smooth acceleration, and high boiling points for power and mileage.

Look for the Red Crown sign before you fill.

STANDARD OIL COMPANY (California)

Stop washday waste—

Use Fels-Naptha Soap.

It eliminates boiling and hard rubbing and stops the waste of washday wear on clothes.

MASTER CLEANERS

The New Economy

That was when the feature of economy was gauged by the manner in which money was accumulated, spent or saved. But money is a mere medium. Money becomes less valuable as the things we purchase become more difficult to buy. Hence, the economy of today must be practiced with things. Clothing we must save.

LET US BE YOUR CLEANER NO BETTER WORK ANYWHERE

Largest, most completely equipped Dry Cleaning Establishment in the San Joaquin Valley.

NEIL-WHITE & Co.
MARIPOSA ST. (1937) AT JAYAdvance Formal Showing of
Early Autumn Styles In
FOOTWEAR

This showing is remarkably distinctive because of foresighted merchandising, planned months ago. At that time we realized that, owing to the shortage of desirable materials and to other upset trade conditions, a great scarcity of fine leather and almost unsurmountable difficulties were going to prevail in obtaining fall shoes. All the force of our mighty buying power was brought to bear—the excellent trade relations we enjoy with leading manufacturers serving to overcome these difficulties. As a result we are enabled to show at this time assortments of new fall and winter shoes of such unusual variety, extent and value that we understand them to be absolutely unequaled.

SCHOOLS and COLLEGES

ST. AUGUSTINE ACADEMY
A BOARDING SCHOOL FOR YOUNG LADIES
FRESNO, CAL.

St. Augustine's Academy occupies one of the most charming locations in the beautiful city of Fresno. This school is under the direction of the Sisters of the Holy Cross, whose lives are devoted to education, and who are trained especially for this work.
Thorough and practical instruction in all branches of higher education is afforded, and special attention paid to those in the primary classes. In vocal and instrumental music the advantages offered cannot be surpassed.
A business course has been added to the Academic. Stenography, bookkeeping and typewriting are taught with great success. Plain sewing and fancy work are taught by experienced teachers.
For further particulars apply to

SISTER SUPERIOR
2811 MARIPOSA STREET, FRESNO, CALIFORNIAThe Cora L. Williams
Institute for Creative Education

THOUSAND OAKS, BERKELEY
The purpose of the Institute is to reveal the untrained-of potentialities stored away in the child-mind.

Lower School: Designed as a working model for the new education. The curriculum includes music, drawing, dancing, dramatics, story-writing, French and Latin, in addition to the regular branches.

Upper School: Designed for young people who do not wish to go to college, or who have not the requisite preparation to do so, yet would become cultured men and women.

Attractive features are large natural grounds, terraces, swimming pool, tennis court and children's theater. The Institute is established in the former John H. Spring mansion.
Both day and boarding pupils accepted.

You Can Clean More
Quickly and Thoroughly
With a Hoover Than
in Any Other Way

The Hoover Electric Sweeper has the advantage over other sweepers in its motor driven brush. This brush shakes and loosens the dirt, while the suction gathers it up in the dust bag. Your house can be cleaned much more quickly and satisfactorily than with the old-fashioned broom. It does not tire you, nor do you have to work in a cloud of dust.

\$5 Down, \$5 a Month
Pays for THE HOOVER SUCTION SWEEPER

For the small sum of \$5 down and \$5 a month, you can put the Hoover Sweeper in your home. It costs but little to operate the Hoover, and it saves you cleaning bill labor bills, saves your time and strength. Ask for a demonstration.

San Joaquin Light
& Power Co.THE HOOVER SHAKES, SWEEPS, SUC-
TION CLEANS ALL IN ONE OPERATION

SOLDIER IS GIVEN MILITARY FUNERAL

KINGSBURG, Sept. 2.—Patriotism was manifest in a large degree at the obsequies of the late John Quattrini, who was laid to rest today in Kingsburg cemetery. Quattrini, who was in the service of the United States army at Camp Fremont, died Wednesday, August 28. The body was received in Kingsburg Saturday, and at 8 o'clock this morning was taken to Selma, where a regular high mass was said, with many friends in attendance. At 1 o'clock the funeral cortege returned to this city and proceeded to the ceme-

er, followed by the longest procession which had ever gathered to bury a man. The last row to the grave this time consisted of the men in the procession were the Fresno Home Guard in charge of Officers Jackson, Speed, Turner and Finney, which had been secured for the service through the efforts of Dr. Flora Smith, city physician, and full 1000 citizens in conveniences.

At the cemetery Rev. Father Krossan of Selma, assisted by Judge C. P. Draper, performed the last solemn duty. A solemn requiem mass was sung. The priest, assisted by Attorney Charles W. Trask, gave the funeral oration at the grave. This was followed by prayers from Prof. Gibbs and the bugle call of the Fresno Home Guard. Three

The deceased soldier was born in Italy in 1857, and came to the United States in the year of 1913, leaving an aged mother and father, a beloved wife and three children for the better when he established his new home in America. He believed his trade as contractor and builder, and as engineer prior to his induction into the United States army, and made his home near Kingsburg, where he had acquired property and a family when he was

broke out in Italy, two of his brothers
 joined the Italian forces, one of whom
 has since been slain on the field of
 battle. His wife and children have
 been taken prisoners of war by the
 Austrians, and his aged mother and
 father cannot be located.

INJURED AUTOISTS SHOW IMPROVEMENT

HANFORD, Sept. 2.—Physicians at
 the hospital here report that the

ending Mrs. J. L. Mills family received painful injuries late yesterday afternoon in an automobile accident near Armonia. Today stated that she would probably recover. It was found that the internal injuries were slight. The cause of the accident was Mrs. Mills, and that a severe wrenching near the back, which affected her spine for some hours, formed the most serious feature of her injuries. Joseph Mills, ear, which was severely injured, was a great threat of flesh, was sewed on with white surgeon's stitches and it is believed it will be saved. Niles Mills the 5-year-old son, whose collar bone was broken was resting easily tonight.

Dr. D. Farmer, who investigated the accident, states that M. Faris, driver of a cream truck which figured in the accident was blameless; that foliage by the roadside at the corner where the accident occurred, had obscured the view and that Faris, like Mills, did everything possible to prevent the accident when it became apparent that he two cars were about to come together.

**KINGS TO SUPPLY
4,000 IN DRAFT.**

HANFORD, Sept. 2.—Kings county will probably furnish about 4,000 men to Uncle Sam through the new provision of the selective draft law, which fixes the age limit at 18 to 45 years. This estimate was made today by G. O. Wynne, clerk of the Kings county exemption board. Of that number about 1,000 are expected to register on September 12 from Hanford. Mr. Wynne is now preparing for the time when the registration will bring to his office.

Sleeplessness Corrected by Internal Baths

cell is the invention of Dr. Chas. A. Tyler, M. D., of New York, a noted specialist on gonorrhea. The following is the way it can be shown and explained to you by the Owl Drug Co., who will be glad to give you an interesting booklet by Dr. Tyler, entitled "The Man of Today. Only as Per Cent Efficient." This booklet is free upon request. Ask for it today, while you think of it.

News of the Sport World California Oil

Big Change in the World's Series Outlook This Year

NEW YORK, Sept. 2.—While neither the receipts nor attendance figures expected to be large at the coming world's series, baseball fans throughout the country are certain to watch the daily returns with more than the usual interest, owing to the changed conditions under which the series will be played. Two outstanding features are apparent which have not heretofore been faced by either the players or the managers at any time in the history of the baseball classic. No such national or international crisis has ever prevailed during the playing of a world series as exists at this time. Under normal conditions the annual clash of the pennant winning clubs of the rival major leagues has such been one of the elements of the year. The play was followed each day by hundreds of thousands of baseball enthusiasts in all parts of the country. Great cities and little hamlets in isolated sections of the country have witnessed the daily gathering of the masses to the ballparks and player boards to follow the fortunes of the competing teams. Today the mind of the public is burdened with great responsibilities and cares, and the world series at best can be but a momentary diversion.

Under the circumstances it appears certain that, while the games may be well attended, there will be nothing like the great outpouring of fans which have once year filled the parks. The players and the owners of the clubs and players' managers to say this will make little difference to the men who participate in the diamond battles, for under the new system of apportioning the prize money and the individual share of the receipts they can secure but a fixed sum, regardless of the total of the gate receipts.

As adopted last winter by the two leagues and the National Commission, the new regulation provides that each member of the winning club shall receive \$2,000 as his share of the world series proceeds, while the loser's individual end will amount to \$1,400. The total of these sums will come from the usual 50 per cent of the gate receipts for the first four games of the series. The new arrangement, however, calls for a further distribution of the balance of this 50 per cent fund among the players of the three clubs which finish in the next three places of the series, respectively, second, third and fourth.

After the money apportioned to the players of the two competing teams has been deducted from the original 50 per cent, the residue will be divided upon the following basis: To the players of the National and American League clubs finishing second in their respective pennant race, 50 per cent; to the third place club, 30 per cent; and to the fourth place club, 20 per cent.

This new arrangement does not affect

NATIONAL LEAGUE RESULTS

CINCINNATI TAKES BOTH.—Cincinnati closed the season in third place by winning both games of a double-header from St. Louis, 6 to 3 and 1 to 0. Score: First Game—Cincinnati, 6; St. Louis, 3. Second Game—Cincinnati, 1; St. Louis, 0.

BRAYES GET ONE GAME.—Boston, for the first time this season, won from New York when it clinched today's double-header. The opening game was won by New York, 6 to 2, and the final contest was captured by Boston, 2 to 1. Score: First Game—New York, 6; Boston, 2. Second Game—Boston, 2; New York, 1.

BROOKLYN LANDS FIFTH.—Brooklyn closed the season in fifth place by defeating Philadelphia in the second game of the holiday double-header, 5 to 3. The Phillies won the first game, 1 to 0. Score: First Game—Philadelphia, 1; Brooklyn, 0. Second Game—Brooklyn, 5; Philadelphia, 3.

PITTSBURGH CLOSURE.—Pittsburgh closed the season here today by splitting a double-header, the visitors winning the morning game, 1 to 0, while Pittsburgh took the afternoon contest, 2 to 0. Score: First Game—Pittsburgh, 1; Chicago, 0. Second Game—Pittsburgh, 2; Chicago, 0.

The club owners or the National Commission, however, for the old rule of distribution still prevails. Of the 40 per cent of the gate receipts of the first four games, the National Commission will receive 10 per cent and the club owners 30 per cent. After four games have been played the players cease to participate in the distribution and the National Commission will receive 10 per cent and the club owners 90 per cent. The winning and losing clubs are called upon, however, to divide 25 per cent of the world series share with the other seven clubs in their respective leagues.

The following tabulation shows the world series receipts and divisions of same each year since 1903:

AMERICAN LEAGUE RESULTS

DIVIDE DOUBLE-HEADER.—Washington, Sept. 2.—Washington and Philadelphia ended the season by dividing the labor day double-header, 5 to 3 and 2 to 2. The Nationals taking the afternoon contest, 5 to 3. Score: First Game—Washington, 5; Philadelphia, 3. Second Game—Washington, 2; Philadelphia, 2.

RED SOX BREAK EVEN.—NEW YORK, Sept. 2.—In the final game of the season Boston and New York ended their season with a tie, 3 to 3, and the Yankees the second, 4 to 2. Score: First Game—New York, 3; Boston, 3. Second Game—Boston, 4; New York, 2.

DETROIT TAKES BOTH GAMES.—DETROIT, Sept. 2.—Making little of the championship race, Detroit and Chicago ended their season with a double header, the home team winning both in a 2 to 0 and 1 to 0. Score: First Game—Detroit, 2; Chicago, 0. Second Game—Detroit, 1; Chicago, 0.

SIX HEATS NECESSARY TO DECIDE A WINNER ON WESTERN CIRCUIT.—ST. PAUL, Minn., Sept. 2.—Six heats were necessary to decide a winner in the 2000 yds. feature event on the Great Western Circuit business program at the fair here today. The Pointer Queen, driven by Dick McClinton, took first money. McMahon also piloted a winner in the 1111 trot. The 2200 pace resulted in a victory for Miss Minnie. The 2-year-old pace went to Foster Fletcher in straight heats. Best time: 2:05.4. 2:10 trot—2:09.4. 2:20 trot—2:09.4. Three-year-old pace—2:10.4.

RAIN WETS SWIMMING COURSE DURING A. A. U. RACES IN LAKE MICHIGAN.—CHICAGO, Sept. 2.—W. A. "Duddy" Wallen of the Great Lakes naval training station won the 100 yds. freestyle swim at the A. A. U. races here today, defeating Herman Laubs, formerly of St. Louis, in 2:05.3. Laubs also swam under the colors of Great Lakes. The event was contested during a heavy downpour of rain. Wallen, a Chicagoan, also holds the national half mile title.

Perry McGilivray of the Great Lakes naval training station won the Central A. A. U. 500 yds. freestyle swimming event in 8:25. McGilivray, a Chicagoan, also won the 100 yds. freestyle event in 1:10.5.

Year	Games	Attendance	Receipts	Share	Players' Share	National Commission
1903	8	100,420	\$50,000	\$17,388	\$22,612	\$5,000
1905	5	91,723	\$68,403	\$24,170	\$27,384	\$5,841
1906	8	99,846	\$105,566	\$24,403	\$24,403	\$5,841

CHICAGO NATIONAL LEAGUE ELIGIBLES ASPIRANTS FOR WORLD SERIES HONORS

NEW YORK, Sept. 2.—Ranging in age from 21 to 34 years and with playing experience of from four to fifteen years, the Chicago National League pennant winning eligibles and aspirants for the world series honors are listed below. Manager Fred Mitchell and Captain Otto Knebe are fully confident of ultimate victory and to the followers of the national game the following statistical table will be interesting as well as convenient for the purpose of comparison with the players representing the American League pennant winning club.

Name	Pos.	Age	Wt.	Ht.	BB	Throws	Residence
Fred Mitchell	Mgr.	47	175	5-11	11	R	Albion, Mass.
P. Otto Knebe	Capt.	34	176	5-7	13	R	Philadelphia, Pa.
C. R. Hendrix	P	29	156	5-10	10	R	Springhill, Pa.
Joe J. Vaughn	P	30	204	6-4	10	R-L	Honey Grove, Tenn.
Geo. A. Taylor	P	27	175	5-10	10	R	Nashua, N. H.
Tommy Connolly	P	25	156	5-10	10	R	Gowanus, Tenn.
Woodward Martin	P	25	168	6-1	5	R	Oakland, Cal.
Jack Carter	P	24	176	5-11	6	L	Lake Park, Ga.
Joe J. Walker	P	25	180	6-1	7	R	New Orleans, La.
Wm. Kilfer	P	23	175	5-9	12	R	Law, Pa.
Robert O'Farrell	P	21	175	5-9	12	R	Law, Pa.
Thomas Clark	P	20	172	5-10	11	R	Corona, L. I., N. Y.

Willie Cullity	P	25	181	5-10	1	R	Chicago, Ill.

SERGEANT N. PETHLEY TO RUN MARATHON AGAINST PVT. SHANNON AT KEARNY

CAMP KEARNY, SAN DIEGO, Cal., Sept. 2.—The labor day holiday here today found Camp Kearny almost deserted by enlisted men, though the officers generally were at their desks. There is tremendous amount of organization work connected with the transformation of the former cavalry regiment into a new one, and with the organization of the infantry units into new regiments. While most of the regiment has been divided, the labor of setting down new quarters, building up administrative staffs, and training men in modern new tasks continue.

Greatest activity centered today around the receiving camp, however, where staff officers have been busy literally night and day for a week past. The various machinery for the induction of draft recruits expected to arrive this week and given a final inspection today and all sorts of minor matters arise in claim of that officer. It is aimed to have every detail provided in advance of the recruits' arrival and to have a heaven's eye to this was done today.

IN THE SWIM

An unusually large crowd of enthusiastic spectators watched the water events of the 25-yard dash, which was held at the National Athletic Club yesterday afternoon, and the races were also enough to be very exciting.

Charles Stuey took first place in the high and steeple chase, as well as second in the 25-yard dash, which puts him in a position to meet the required 20 points for a medal.

R. Barstow kept right on going yesterday in piling up points for his second medal, taking first place in the 25 and 50 yard events.

Stuey earned two points by taking first place in the 100-yard dash, and Hill was checked up for four points for taking first in the diving for plates, and second in the 100-yard, and second in the 100-yard race.

A. Crawford won the 50-yard half-mile race, and M. O'Connell was second in the 100-yard race, giving them two and one point, respectively.

The 100-yard race was won by Crawford, with Hendley second, and the 50-yard race was won by Crawford, with Wright and Dean tied for second place.

The medals are proving quite a drawing card to the boys, and they are all working hard to take home the bacon.

Stuey when he covered the distance at the rate of 65.01 miles an hour.

Miss Detroit III, the only other power must to start in the mile event, dropped out in her second trial, after making the first dash at the rate of 61.9 miles an hour.

Detroit, Sept. 2.—Adding four points to her score by finishing second in the final 20-mile heat, Miss Detroit III, the champion of the American Power Boat Association, here this afternoon.

White-nose-Will, Jr., of the Lake George Yacht Club, won today's heat and placed Miss Minnesota fourth for second place.

Miss Detroit II failed to finish in the first heat of the first two heats.

LAKE GEORGE HYDROPLANE WINS CHAMPIONSHIP AT 66-MILE CLIP

DETROIT, Sept. 2.—The one-mile power boat championship of North America today was awarded to the White-nose-Will, Jr., of the Lake George Yacht Club, when Mike Detroit III of the Detroit Yacht Club failed to finish her mile trial. In six-mile trials, the Lake George hydroplane averaged 66 miles an hour.

The results of the contest were as follows: White-nose-Will, Jr., 66 miles an hour; Mike Detroit III, 61.9 miles an hour; Miss Minnesota, 61.9 miles an hour; Miss Detroit II, 61.9 miles an hour.

REDRILLED WELLS INCREASE OUTPUT

FULLERTON, Sept. 2.—The Cona Oil Company is wondering what has become of the gas that was so strong in the well before the hole was cemented three weeks ago. The well is located in Little Bear Canyon, and three miles from the producing area of the Fullerton field. Drilling was discontinued at 3850 feet and the well was cemented at 2800 feet. At the time it was cemented the well was showing quite strong in gas. After allowing it to stand cemented for three months, the gas was bled out and tested. To the astonishment of the owners the gas pressure was gone and the ballings showed only a few oil colorings. In the drilling of the well blue shale was encountered at 2705 feet, about 1275 feet and a fairly good grade of oil at 3800 feet. This sand continued unbroken for 180 feet. It is not the intention of the company by any means to quit after working for two years and spending \$100,000. Further tests will be made and drilling continued—200 feet, if necessary.

The Central Oil Company is setting a good example that would be well for many other companies to follow. This company has been redrilling many of its wells, with the result that wells that were producing from 4 to 15 barrels a day have been increased to 100 barrels a day. Altogether, ten wells have been re-drilled and in all cases but one the production was increased from six to twenty-five times.

The well re-drilled, one extra string of casing, and the amount of new hole varied from 500 to 800 feet. In a number of wells the quality of the oil was improved.

The Union Oil Company is cleaning out its deep well as a test of 441 feet. Two weeks ago this well made a spectacular showing by throwing oil and water over the crown-block after it had stood cemented for two weeks. The test showed that the water was not shut off and will require another cementing.

BRIEF OIL NOTES FROM M'KITTRICK

M'KITTRICK, Sept. 2.—The General Petroleum Company goes on steadily in the development of the various fields in which it is long, slow, steady, making a record for increase in production of petroleum and extension of operating territory. Well No. 1, newly started on section 28, 1-12, Montebello district, is its latest exhibition of business enterprise. Another progressive feature is the upbuilding of the Montebello field. The Union Oil Company has just sunk well No. 11 in section 2, 1-12, and at the same time has spudded in No. 2 on section 32, 1-12, in the Santa Fe field. Coyote Hills district, recorded a new well on the property of the Standard Oil Company, section 17, 3-10, while the Grey Heirs Oil Company in the Kern River field began drilling No. 35 on section 10, 29-28, and the Coalinga field was credit with two new wells—the work conducted by the Coalinga Oil Company in section 12, 15-15, and the 27, 3-11, and 31, 1-15. In addition to this work in the Coalinga district, the Standard Oil Company, the Shell Oil Company, the Arizona Petroleum Company and the Spunk Oil Company each had been the last few days work with deepening or redrilling wells.

The Syndicate Petroleum Company, whose lease is in section 28, 32-24, in the Midway field, and the headquarters in San Luis Obispo, is deepening well No. 1. This corporation has been operating in this district since its organization in 1905.

The San Diego Consolidated Oil Company, owning several wells in Orange county, is redrilling No. 2. The property of the company in the Coyote Hills field is in section 10, 2-9.

Well No. 1, property of the Oak Ridge Oil Company, in the South Mountain field, and situated in section 13, 3-21, is being deepened by the Oak Ridge Company, which was formed seven years ago. This corporation is principally engaged in oil and gas work in the San Francisco area with a capital stock of \$5,000,000. It is one of the leading concerns operating in the field, and its activities within the past eighteen months in drilling has attracted much attention.

On section 27, 31-22, in the Midway field, the Chandler-Cannell Midway Oil Company (Santa Fe) is redrilling No. 9, while No. 4, in section 7, 32-23, is undergoing a test for water-shut-off.

REMEDIAL LAWS TO PASS SOON

BAKERSFIELD, Sept. 2.—Oil remedial legislation is to pass soon, according to the California Oil World, which says: "Reports from Washington indicate that the senate and house conferees will get together on an oil and salt bill of some nature shortly. The Senate bill and that of the House differ in this: The former calls for a lease to the claimant of one-quarter, the balance to be leased at the discretion of the secretary of the interior. There are signs of earnest opposition from the navy department, which makes action at this session doubtful.

MIDWEST TO USE SHOTS IN WELLS

TAFT, Sept. 2.—Charles Allison, of Allison & Alexander, the California oil field dynamiter, has returned from the Midwestern fields, where he spent the past month arranging for dynamiting in that district to use California ideas. A top-notch company, being located at Tulsa which will use California methods of dynamiting almost exclusively.

OILMAN IS PROMOTED

SAN FRANCISCO, Sept. 2.—R. C. Warner has been appointed controller of this corporation, effective as to September 1, 1918.

DOHENY COMPANY SPUDS IN WELL

M'KITTRICK, Sept. 2.—The Petroleum Midway Limited, of which E. L. Doheny is president, has spudded in No. 1 in section 3-12, in the Montebello field. The company is redrilling No. 1 in section 6-2-11. The Standard Oil Company is deepening No. 10 in section 1-12-12.

In the Bardale field the Montebello Oil Company is deepening well No. 113 in section 4-3-13. The Montebello region is being developed at a rate that is attracting the attention of operators not only from every part of California, but also from other states as well.

Among the companies testing wells for water shut-off in the Coalinga field are the Southern Pacific (two wells) and the Standard Oil. The Doherty Oil Company in the Bardale field is making a test of two, while the General Petroleum Corporation is testing one in the same region.

A new well being deepened is No. 4 in the Coalinga field. This is owned by the Amity Oil Company and is in section 1-20-14.

The amalgamated Oil Company is redrilling a well in Coyote Hills, where this corporation, an section 4-8-10, has more than two score wells.

The Coalinga Star Oil Company is making good progress in drilling No. 17, situated in section 11-20-14 in the Coalinga field.

START WILDCAT AT SAN MATEO

M'KITTRICK, Sept. 2.—The Tradeg Oil Corporation, having started a wildcat well in Purisima Canyon, has been making strong endeavors to obtain a producer calculated to make that part of San Mateo county well worthy of further development. No. 1 well of the company in this region is located at a point less than three miles from the ocean, and in the neighborhood of five miles from Halfmoon Bay. With reference to efforts made some years ago in quest of petroleum in Santa Clara and San Mateo counties, the geological survey has shown that "Wells have been bored for oil at various places in the Santa Cruz quadrangle, but petroleum has been found in commercial quantities only in a limited area, and the oil is of a very small quantity of a light oil of excellent quality are obtained from sandstone beds believed to be inter-related with the Monterey shale a short distance beyond the base of the Purisima formation."

DELIVERS RIGS FOR MANY WELLS

MARICOPA, Sept. 2.—C. L. Hutchins reports the delivery of rigs to the Maricopa yards to the following leases this week: Two to the Recovery lease at Shale, one to the Brookshire lease near Shale, one to the Pacific Midway lease on section 32, 12-23, and to the Midway Northern lease on section 32, 12-23, and to the H. & P. lease near Maricopa. All the derricks but the last two named are for new wells to be drilled on lands now under receivership to increase the production as a war measure.

TAKE UP

PAY YOUR W. S. S. PLEDGE NOW IS NATION'S PLEA

This Is National W. S. S. Week and Government Needs Money

Assistant County Director Urges All to Respond to Call

Make good your war savings pledges this week—make good every installment you've overlooked! Do better than that! Make good your October pledge and your November pledge—if you are able.

That's the plea sent to every war saver in the United States yesterday through the chairman of every W. S. S. committee in the country.

The government needs money is the frank statement made by State Chairman Schlesinger in San Francisco and forwarded to Assistant County Director Harry C. Wilber.

And to bring to the attention of all the people the government's great immediate need for money—for money to back up the most offensive in France in which the Yanks are taking such a colossal part—this week has been officially designated as War Savings Stamp week all over the nation. In theory it began yesterday, it actually begins today. It lasts until midnight next Monday. By that time the government expects hundreds of thousands of loyal Americans to make good their pledges, and to do more than that—to pay the overdue pledges and take up as many pledges as possible before they fall due.

"We have been urged to call on every Fresno man who signed a W. S. S. pledge to pay up as much as possible," declared Assistant County Director Wilber yesterday. "The government needs the money and I want to urge every one to go to his bank tomorrow and buy as many W. S. S. as he possibly can."

GUARDS FINISH SUCCESSFUL CAMP

Drafted Men Invited to Join Military Drills by Major Jones

The Fresno Home Guards had one of their most extended outings at Rooding Park the past week-end, and Major Ed. Jones reports wonderful improvement in the work of nearly 100 of the soldiers' fare, plus the fruit presented by S. P. Fricelle, the host, drilled in sun and shade, and slept under the stars.

Major Jones said last night he wished particularly to invite all drafted men or any men who expect to be drafted to attend the drills of the guards. The guards drill at the Armory and the playgrounds Friday nights.

The companies will be called out the coming Friday night to serve as an escort for the old men who are going to the training camps.

Bed Room Furniture

"Old Ivory" Just now, Dame Fashion, in Furniture decrees "Old Ivory" and it is one of the most artistic and pleasing styles that we have ever shown. This style adds greatly to the charm and daintiness of a bedroom, and lends itself easily to attractive schemes in bedroom decoration.

We shall enjoy showing you this latest style in Bedroom Furniture.

Arrivals Overseas

MEN OF THE VALLEY NOW OVERSEAS.
Top—Alvin Jones, Arsen Tashirian and L. L. Smith. Bottom—Ray Farrar, V. A. Carlton and Riley Staples.

Victor A. Carlton, son of Mr. and Mrs. A. Carlton of Fresno, has arrived overseas, according to word received by his parents. He left Fresno in April with the 31st Engineers and has been in France since June. In a letter home he states that he admires the scenery and climate of France, which he compares to that of California. He also said that he had met several Fresno boys in France. Before enlisting he was in the employment of the Santa Fe railroad as a conductor.

Arsen M. Tashirian has arrived safely overseas, according to news received by his Fresno friends. He is a member of the supply company of the 160th Infantry and was stationed at Camp Kearny before sailing for Europe. He left Fresno in September, 1917.

Word has been received by Mr. and Mrs. T. F. Jones of the safe arrival of their son, Alvin H. Jones, overseas. He is a member of Company C, 145th Machine Gun Battalion.

Announcement of the arrival overseas of Corporal Ray Farrar has been received by his parents, Mr. and Mrs. J. H. Farrar, of 705 Van Ness boulevard. Corporal Farrar is a member of Company M, 159th Infantry, and was stationed at Camp Kearny since his enlistment in May, 1917, till his departure for Europe.

Mr. and Mrs. H. H. Staples have received word that their son, Riley Staples, has arrived overseas. He enlisted in December, 1917. He is a member of the 320th Aero Squadron.

News has been received of the arrival overseas of Lieutenant L. L. Smith. He is attached to the 159th Infantry.

The California Peach growers yesterday shipped eight cars of peach pits to the United States army gas mask factories in San Francisco. The government contract was arranged by Geo. C. Rooding, A. P. Kane is arranging the shipments for the Peach Company.

The peach pits make the best gas mask charcoal to be obtained, and this charcoal has been instrumental in saving thousands of lives on the battlefield, because of its superior absorbent qualities. Since the government made arrangements to pay the growers \$2 a ton and permitted deliveries in boxes or other containers, as well as sacks, the farmers have speeded up deliveries.

The supervisors may hold night sessions to finish counting the primary votes. It was announced yesterday. Although it was Labor Day all the supervisors were on hand with their clerks to count at an early hour, and a full day's work was "knocked out."

"We may get through this work," said Lockwood. "It looks like night work if we are to make sure of it," said Wells.

The count on city ballots will begin this morning. The supervisors are anxious to finish Fresno today if possible. Forty-one precincts have been counted to date.

One of the developments of the day probably will be the determining of whether Supervisor Chris Ingerson retains his seat over E. E. Slater and is re-elected.

TO HOLD SERVICE FOR MRS. LYNN

Announcement is made that the funeral of Mrs. Wallace Lynn of Selma will be held at the First Presbyterian church of Selma tomorrow afternoon at 3 o'clock. Interment will take place in Selma cemetery.

May Work Nights to Count Votes Cast in Primary.

Brakes Relined or Adjusted

There is nothing so important about a car as the brakes. Weak brakes, or those not adjusted properly can cause more damage than three times the cost of having them adjusted or relined. This is important. If your brakes are not perfect, bring your car in and we will give you quick and efficient service. "Buy U. S. Thrift and War Savings Stamps"

GIVE POSLAM A CHANCE AT THOSE PIMPLES

Your friends and associates would rather see you without pimples. It can only be detrimental to you to tolerate them. Why not be rid of this cause of embarrassment? You can do so easily with Poslam's help. Get some Poslam today and spread it over the Pimples tonight. Continue until they have disappeared. You will probably have some Pimples left over to treat. Burn, Itching Scabs, Itching Feet, Chills, Irritations. You will be amazed to find that it took so far and does so much. Sold everywhere. For free sample write to Emergency Laboratories, 213 West 47th St., New York City.
